

**TEACHER ELIGIBILITY TEST
TGTET 2024 - II**

PAPER II - SYLLABUS

I. CHILD DEVELOPMENT AND PEDAGOGY (Marks: 30)

1. DEVELOPMENT OF CHILD

- Development, Growth & Maturation - Concept & Nature
- Principles of development & their implications
- Factors influencing Development - Biological, Psychological, Sociological
- Dimensions of Development and their interrelationships - Physical & Motor, Cognitive, Emotional, Social, Moral, Language relating to Infancy, early Childhood, late Childhood, Adolescence.
- Understanding Development - Piaget, Kohlberg, Chomsky, Carl Rogers and Erikson
- Individual differences - Intra & Inter Individual differences in the areas of Attitudes, Aptitude, Interest, Habits, Thinking (Divergent & Convergent), Intelligence and their Assessment
- Development of Personality - Concept, Factors effecting development of Personality, Child Rearing Practices, Self-Concept
- Adjustment, Behavioural problems, Defense Mechanisms, Mental Health
- Methods and Approaches of Child Development – Introspection, Observation, Interview, Case study, Experimental. Anecdotal Records, Questionnaire, Rating Scales, Cross sectional and Longitudinal
- Developmental tasks and Hazards

2. UNDERSTANDING LEARNING

- Concept, Nature of Learning - input - process - outcome
- Factors of Learning - Personal and Environmental
- Approaches to Learning and their applicability-Behaviourism (Skinner, Pavlov, Thorndike), Constructivism (Piaget, Vygotsky), Gestalt(Kohler, Koffka) and Observational (Bandura)
- Dimensions of Learning - Cognitive, Affective and Performance
- Motivation and Sustenance -its role in learning.
- Memory & Forgetting
- Transfer of Learning

3. PEDAGOGICAL CONCERNS

- Teaching and its relationship with learning and learner
- Learners in Contexts: Situating learner in the socio-political and cultural context
- Children from diverse contexts-Children With Special Needs (CWSN), Inclusive Education
- Understanding of pedagogic methods - Enquiry based learning, Project based learning, Survey, Observation and Activity based learning, Co-operative & Collaborative Learning
- Individual and Group learning: Issues and concerns with respect to organizing learning in class room like Study habits, Self learning and Learning to learn skills
- Organizing learning in heterogeneous class room groups - Socio-economic background, Abilities and Interest
- Paradigms of organizing Learning-Teacher centric, Subject centric and Learner centric
- Theory of Instruction - Bruner
- Teaching as Planned activity - Elements of Planning
- Phases of Teaching - Pre active, Interactive and Post active
- General and Subject related skills, competencies required in teaching and attributes of good facilitator
- Learning resources - Self, Home, School, Play,Community, Technology
- Class room Management: Role of student, teacher, Leadership style of teacher, Creation of non-threatening learning environment, Managing behaviour problems, Guidance & Counselling, Child abuse, Punishment and its legal implications, Rights of a child, Time Management.
- Distinction between Assessment for Learning & Assessment of Learning, School based Assessment, Continuous & Comprehensive Evaluation : Perspective & Practice
- Understanding teaching & learning in the context of NCF, 2005 & Right To Education Act, 2009

II. LANGUAGE -I

SANSKRIT(Marks:30)

A) Content

Marks:24

1. अ) अपरिचितगद्यम्।
आ) अपरिचितश्लोकः।
2. कवयः - काव्यानि / रचयितारः - तेषां रचनाश्च।
प्रक्रियाः - चम्पू, नाटकम्, पद्यम्, गद्यम्, प्रहेलिकाः, संवादः, निबन्धः, लघुकथाः, पत्रलेखनम्, गीतम्, अनुवादः।
3. वाक्यपरिवर्तनम् :- i) लिङ्गवचनविभक्तिपरिवर्तनम् ii) पुरुषवचनपरिवर्तनम्
iii) कालपरिवर्तनम् iv) क्रियापरिवर्तनम्
v) कर्तरिकर्मणिवाक्यपरिवर्तनम्
वाक्यसंयोजनम् :- i) प्रत्ययान् स्वीकृत्य वाक्यसंयोजनम् ii) अव्ययानि स्वीकृत्य वाक्यसंरचना
साधारणलिपिदोषाः -
4. वाक्यक्रमविधानम् - भावानुकूलवाक्यसंरचनम्, कथानुक्रमणिका
5. वर्णविभागः, लिङ्गवचनविभक्तिज्ञानम्, शब्दाः, धातवः, सन्धयः, समासाः, संख्याः, पर्यायपदानि, संख्यावाचकाः, नानार्थाः।
अलङ्काराः(सप्रभेदम्), अनुप्रासालङ्काराः।
छन्दः (गुरुलघ्वोः ज्ञानम्, गणानां विषये परिज्ञानम्, अनुष्टुप्, वृत्तानि)।

B) Methodology

Marks: 06

1. भाषाविभागः, भाषाप्रतिः।
संस्कृतभाषायाः परिभाषा वैशिष्ट्यं च।
व्यावहारिकभाषारूपेण संस्कृतम्।
सांस्कृतिक भाषारूपेण संस्कृतस्य वैशिष्ट्यम्।
शिक्षणस्य लक्ष्याणि-स्पष्टीकरणानि च।
2. भाषाकौशलानि- श्रवण, भाषण, पठन, लेखनकौशलानि।
भाषाविषये श्रवणभाषणकौशलयोः पात्रता।
मौखिकलिखितसंप्रेषणार्थं भाषाधिगमसंदर्भे व्यकरणस्य पात्रता।
3. संस्कृतभाषाशिक्षणसिद्धान्ताः।
संस्कृतभाषाशिक्षणविषयः।
4. संस्कृतभाषाशिक्षणसमस्याः।
उपचारात्मकशिक्षणम्।
5. शिक्षणाधिगमसामग्री, पाठ्यपुस्तकम्, दृश्यश्रव्योपकरणानि, विविधमाध्यमसामग्री। (Multimedia)
6. श्रवण -भाषण- पठन-लेखनकौशलानां मूल्याङ्कनम्।

III. LANGUAGE - II (ENGLISH) (Marks: 30)

CONTENT (Marks: 24)

(1) Parts of Speech (2) Tenses (3) Active voice & Passive voice (4) Prepositions and Articles (5) Degrees of comparison (6) Clauses (7) Verbs - Main Verbs - Auxiliary Verbs (8) Adverbs - Types of Adverbs (9) Conjunction - coordinating conjunction - subordinating conjunction. (10) Direct and Indirect speech (11) Questions and question tags (12) Types of sentences - simple, compound and complex - synthesis of sentences (13) Phrases - uses of phrases. (14) Composition - letter writing - precise writing (15) Comprehension (16) Vocabulary - Antonyms, Synonyms and Spellings (17) Meaning of idiomatic expressions, (18) Correction of Sentences, (19) Sequencing of the Sentences in the given paragraph (20) Error identification within a sentence

PEDAGOGY (Marks: 06)

1. Aspects of English:- (a) English language - History, nature, importance, principles of English as second language. (b) Problems of teaching / learning English.
2. Objectives of teaching English.
3. Phonetics / Transcription.
4. Development of Language skills:- (a) Listening, Speaking, Reading & Writing (LSRW). (b) Communicative skills - Imparting values through Communication.
5. Approaches, Methods, Techniques of teaching English:- (a) Introduction, definition & types of Approaches, Methods & Techniques of teaching English (b) Remedial teaching.
6. Teaching of structures and vocabulary.
7. Teaching learning materials in English Language Teaching.
8. Lesson Planning.
9. Curriculum & Textbooks - Importance and its need.
10. Evaluation in English Language Teaching - CCE

IVa. MATHEMATICS & SCIENCE (Marks: 60)

CONTENT (Marks: 24)

1. **Number System** - Prime and Composite Numbers, Tests of divisibility, whole numbers, integers, fractions, decimal fractions, L.C.M. and G.C.D. rational numbers and irrational numbers. Properties of numbers, Real numbers; laws of exponents, squares, square roots, cubes, cube roots, finding missing number represented as alphabets in sums involving array of four operations, number patterns, number puzzles, Euclid division lemma, concept of logarithms.
2. **Arithmetic** - Ratio and proportion, simple interest, compound interest, Time and distance, Discount, tax, time and work, profit and loss
3. **Sets** - Concept of set, set language, empty set, finite and infinite sets, subset and equality of sets, cardinal number of set, set operations, representation of sets, Venn diagrams and their properties,
4. **Algebra** -Introduction to Algebra, expressions, exponents and powers, Factorization special products and expansions, linear equations and their graphs, polynomials, Quadratic equations and its applications, concept of progressions, progressions (AP and GP).nth term and sum of the first n terms in AP, nth term of GP
5. **Geometry** - History of Geometry, Contribution of India in the Development of Geometry, Euclid Geometry, Lines and Angles, Similar Triangles, Pythagoras theorem, congruency of triangles, Properties of Circles, Triangles, Quadrilaterals and polygons, Parts of Circle : Construction of Circle, Triangles and Quadrilaterals, Circles and concurrent lines in triangles, Co-ordinate Geometry, Co-ordinates of a point, plotting of points, representing of linear equations in two variables (of the form $ax+by+c=0$,) in the Cartesian coordination system). Linear equations with 2 variables, slope of a line, distance between two points in a plane, section formula, Area of a triangle, collinearity of points in a co-ordinate plane, centroid of a triangle, symmetry,

6. **Mensuration** - Perimeter and Area of a Square and Rectangle. Area of Triangle, Circle, Ring and Quadrilaterals. Surface area and volume of Cube, Cuboid, Lateral & total Surface area and volume of a cylinder, cone, sphere and hemisphere, conversion of one solid to another shape, surface area and volume of combination of solids.
7. **Data Handling** - Collection and Classification of Data, Frequency distribution table, Tally marks, Bar graph, Pictograph and Pie diagrams, mean, median and mode for un-grouped and grouped data, cumulative frequency table and ogive curves, concept of probability, simple problems (day to day life situation) on single events, concept of complementary events.
8. **Trigonometry** – Introduction of Trigonometry, Relationship between ratios, values of trigonometric ratios, (0° , 30° , 45° , 60° and 90°) Trigonometric identities, trigonometric ratios of complementary angles, applications of trigonometry, Angle of elevation and depression, simple problems.

PEDAGOGY (Marks: 06)

1. Definition and Nature of Mathematics
2. Aims, values, instructional objectives of teaching Mathematics and Academic Standards
3. Methods of Teaching Mathematics
4. Instructional material in Mathematics - TLM in Mathematics
5. Instructional Planning
6. Continuous Comprehensive Evaluation (CCE) – Formative Assessment, Summative Assessment – Processes and procedures
7. Designing, Administration, Analysis of scholastic Achievement Test (SAT)
8. Diagnostic and Remedial Teaching
9. The Mathematics Teacher
10. Resource Utilization
11. Curriculum and Text Book

IV(a). SCIENCE

CONTENT (Marks: 24)

1. **Natural Resources - Air, Water:** Water pollution, Harnessing of water, States of water, Hardness of water, water pressure
Air pollution, Atmospheric Pressure, Air pressure, Archimedes' principle, Pascal's law, Bernoulli's Principle, Hydrometer, Barometer.
- Laws of floatation, Specific gravity, Surface tension, Fluid Mechanics.
2. **Our Universe:** Solar eclipse – lunar eclipse - Constellation - Zodiac, Space travel; Solar system, Satellites, stars, comets; Earth.
3. **Natural Phenomenon:**
Light: How can we see objects – shadows – Reflection of light – laws of reflection – plane mirrors and images – Virtual image, real image, pinhole camera, periscope, kaleidoscope – spherical mirrors and images – Fermat's Principal – Applications of reflection of light – Refraction of light – laws of refraction – refractive index, Snell's law – total internal reflection and its applications – refraction through glass prisms and slabs – refraction at curved surfaces and through lenses – images formed by lenses and ray diagrams – construction of human eye – least distinct vision – defects of vision-formation of rainbow- dispersion of light.
Sound: Sources of sound, Production and propagation of sound – construction of human ear and its working – Properties of sound – audible range - Sound Pollution, Sound Waves, Kinds of Sound Waves, characteristics of sound waves – reflection of sound – echo – uses of ultrasonic sounds - Musical instruments.
Heat: Concept of heat and temperature – thermal equilibrium - Measurement of Temperature – Types of Thermometers – specific heat and its applications in daily life – methods of mixtures – evaporation – condensation – boiling point – melting point.
4. **Mechanics - Kinematics, Dynamics: Concept** of motion and rest.
- Types of Motion; Speed, Velocity, Acceleration, Newton's Laws of Motion, force – types of force – resultant force – Friction - types of friction – factors influencing the friction – fluid friction – gravitation – Newton's law of gravitation – centre of gravity and stability. Work and energy – types of energy – conservation of energy.
5. **Magnetism and Electricity:**
Magnetism: Natural Magnets and Artificial Magnets, properties of Magnets, uses magnets – methods of magnetization - Magnetic Induction – magnetic field – Magnetic lines of force.

Electricity: Electric Circuit - Primary Cells – conductors and insulators – electric charge – electric field – electric potential – potential difference – EMF – Ohm's law – resistance – specific resistance – resistances in series and parallel – heating effects of electric current – electric power – magnetic effects of electric current – solenoid – Fleming's left hand rule – electric motor – electromagnetic induction – electric generator – electrical conductivity of liquids – electro plating – Faraday's laws of electrolysis.

6. Matter around us: States of matter – properties of matter – substances and mixtures – methods of separation of mixtures – fibers – types of fibers, plastics – types of plastics – use of plastics and environment.

Acids, bases and salts – neutralization - metals and non metals – physical and chemical properties of metals and non-metals – Coal and petroleum – combustion and fuels – types of combustion – temperature of combustion – calorific value.

7. Laws of Chemical Combination and Chemical Calculations: Physical change, chemical change Laws of chemical combination, chemical reactions and calculations. Types of chemical reactions.

8. Atomic Structure : Atoms and molecules – elements – atomicity – Dalton's atomic theory – Ions – atomic mass – valency – molecular mass – concept of mole – molar mass – Thomson model of atom, Rutherford model of atom – Bohr's model of atom – atomic number – Isotopes – quantum numbers – electronic configuration.

9. Periodic classification and chemical bonding : Dobenier triads – Newlands law of octave – Mendaliev's periodic table – long form of periodic table – changes of properties of elements in groups and periods.

Chemical Bond – ionic bond – covalent bond – shapes of molecules – electron valency theory – properties of ionic and covalent substances.

10. Metallurgy : Extraction of metals and steps – reactivity of metals and its role in extraction of metals – various methods of extraction of metals.

11. Biology: Its importance in everyday life

12. Living World - Characteristics: Classification of Plants and Animals and their characteristics.

a) **Cell:** Concept, Cell theory, differences between Plant cell and Animal cell, Cell divisions, Cell organelles.

b) **Tissues** - Animal tissues, plant tissues.

13. Plant World - Types of plants: Parts of a plant - their functions, seed dispersal, fibers from plants.

Reproduction - Asexual, Sexual, Vegetative propagation, Nutrition, Photosynthesis, Excretion, Respiration, Economic importance of plants.

Economic importance of Plants, Agriculture, Crop diseases & pest control measure.

14. Animal World: Movements, Organ systems and their functions including man

Digestive system, Respiratory system, Circulatory system, Excretory system, Nervous system, Endocrine system, Skelton system, Reproductive system, Sense organs in man, Nutrition Deficiency diseases in man, First Aid, HIV/ AIDS, animal behaviour

Economic importance of Animals, Animal husbandry, Pisciculture, Sericulture.

15. Microbes: Bacteria, Viruses, Fungi, Protozoan

— useful and harmful microbes, microbial diseases in plants & animals

16. Our Environment: Biotic & Abiotic factors, Natural resources, Biodiversity, different eco systems, air pollution, water pollution, soil pollution, carbon cycle, nitrogen cycle, oxygen cycle.

17. Recent trends in Biology: -Hybridization, Genetic engineering, Gene banks, Gene therapy, Tissue culture

PEDAGOGY (Marks: 06)

1. Definition, Nature, Structure and History of Science
2. Aims, Values , Instructional Objectives of teaching Science and Academic Standards in Science
3. Methods of Teaching Science
4. Instructional Material in Teaching Science - TLM in Science.
5. Instructional Planning
6. Science Laboratory
7. Science Teacher - Changing Roles
8. Science Curriculum and its transaction, NCF-2005, SCF-2011
9. Science Textbooks.
10. Evaluation - CCE - Formative Assessment, Summative Assessment - Designing and Administration- Analysis of Scholastic Achievement Test (SAT)

IVb. SOCIAL STUDIES (Marks : 60)

CONTENT (Marks 48)

I. DIVERSITY ON THE EARTH

1. Maps - scale - cardinal points - types of maps - evolution of maps - conventional signs - contour lines
2. Globe - oceans and continents - latitudes and longitudes - origin of earth - realms of the earth (lithosphere, atmosphere, hydrosphere, biosphere) - landforms - movements of the earth and its effect - seasons - interior of the earth
3. Solar Energy - insolation - temperature and its measuring - terrestrial radiation - polar regions
4. Elements of climate - types of rainfall.
5. Europe, Africa - location - physical features - climate - forests and wild life - population - agriculture - minerals - industries - transportation - trade, exports and imports.
6. Geography of India and Telangana - physical features - rivers and other water sources - seasons - forests - climate and its factors affecting - floods and droughts - forests and animal wealth - soils - electricity - agriculture - mineral wealth - industries - population, literacy rate - density of population - settlements and migration - transportation.

II. PRODUCTION – EXCHANGE AND LIVELIHOODS

1. Livelihood of earliest people – sites in Telangana – domestication – settled life Agriculture – types of farming – crop seasons – problems of agriculture and agricultural labourers and small farmers – contract farming – agriculture in Telangana – trade and marketing – Self Help Groups – agricultural markets yards – Minimum Support Price – trading paddy in Telangana – land holdings – phases in agricultural development – green revolution – organic farming.
2. Production – handicrafts and handlooms – cooperative societies and their role – industrial revolution – sources of energy – trade in industrial products – urbanization and slums – production in a paper factory – process of making paper – transport system in Telangana – employment in transport – congestion and pollution.
3. Industries – factors of location – agro based and mineral based industries – automobile industries and IT – phases in industrial development – Industrial policies – growth in production – environmental problems.
4. Service Activities – categories – importance – challenges.
5. Money and Banking – Barter System – exchange with money – evolution of money – emergence of banks – commercial banking – types of deposits – Cheques and Demand Drafts – loans – Internet Banking – credit in the financial system – financial literacy.
6. Prices and Cost of Living – price’s effect on people – inflation – consumer price index – regulation of prices – government budget and taxation – VAT.
7. Production and Employment – sectors of the economy – National Income (GDP) – Per capita Income – HDI – employment – organized and unorganized sectors – impact of technology on three sectors of the economy.
8. Public Health and Government – health care services – public and private health insurance.
9. Globalization – flows in economic exchange – MNCs – Foreign trade – factors enabling globalization – WTO, IMF impact.
10. Food Security and Nutritional Status of India – PDS – sustainable development meaning – sustainable development with equity.

III. POLITICAL SYSTEMS AND GOVERNANCE

1. Tribal Panchayat system - present local body system (Gram Panchayat, Mandal Parishad and Zilla Parishad) & Urban Governments - formation and functions.
2. Emergence of kingdoms and republics - first empires - Mouryas - Rajputs - Rastrakutas – Cholas – Deccan kingdoms - Satavahana - Kushants - Guptas.
3. Regional Kingdoms : Kakatiyas - Vijayanagara Empires - Qutubshahis.
4. Moghals - Asafjahis - British Empire - landlords and tenants under the British and Nizams and Moghals - peasant movement in Hyderabad.
5. National Movement in India - Muslim League - partition and migration - merging of princely states - and Freedom Movement in Hyderabad State.

6. Making of laws and implementation of laws - Assembly - Council and Parliament - Election process - WALTER Act-2002.
7. Indian Constitution - formation - features and preamble - Justice - Rule of Law - Judicial System - civil and criminal laws - levels of courts.
8. Changing cultural traditions in Europe 1300-1800 - renaissance - reformation - modern science.
9. Democratic and National Movements - England, American and French revolutions - unification of Germany and Italy. Expansion of Democracy in Myanmar and Libya - Civil Liberties.
10. Industrialization and social change - Britain, Germany and France - movements of women, workers (Socialism).
11. Colonialism in Latin America, Asia and Africa - impact on India and other regional movements.
12. World Wars I and II - reasons - Treaty of Versailles - League of Nations Holocaust - Nazism - Fascism, consequences - Great depression.
13. National Liberation Movements in China, Vietnam and Nigeria
14. Post War World and India - UNO - NAM - west Asian conflicts - peace movements and collapse of USSR.
15. Independent India - first general elections - SRC - Relation with neighboring countries - regional agitations and formation of parties - coalition governments - Emergency period - Mandal commission - economic liberalism.
16. The Movement for the formation of Telangana - gentle men's agreement - reasons for Telangana demand - different JACs - TRS - achieving Telangana.
17. Disaster management - types of disasters - drought - accident related - threat of terrorism - human induced disasters
18. Traffic Education - traffic signals - signs - necessary documents

IV. SOCIAL ORGANIZATION AND INEQUITIES

1. Diversity in India - gender inequalities - sex ratio - employment - status of women and their work with wages - women protection acts.
2. Caste discriminations - reformers initiations.
3. Abolition of Zamindari System - Rural poverty at the time of independence - Land ceiling - Bhoodan Movement.
4. Poverty – distress in rural areas – poverty as chronic hunger – food inequality – elimination of poverty – access to affordable food – the right to life
5. Human Rights and Fundamental Rights - Right to Information - Right to Education - Lok Adalat.
6. Social Movements - Civil Rights movement in USA - Green Peace movements - Bhopal gas disaster - NBM - meria paibi - Human Rights Movement in USSR.

V. RELIGION AND SOCIETY

1. Religion and society in early times - Indus Valley Civilization - Vedas – Hinduism, Buddhism, Jainism, Christianity, Islam Bhakti movement, new religious developments in India.
2. Folk - religion – communal worship of folk deities. The antiquity of folk traditions – inter mixing of village deities and high religious traditions
3. Social and Religious Reforms Movement – Christian Missionaries and Oriental Scholars – Religious Movements of Bengal and Punjab – Reform and Education among Muslims – Reform Movements in Nizam Dominions – Women and Dalits in freedom movements.
4. Understanding Secularism.

VI. CULTURE AND COMMUNICATION

1. Indian Heritage and Culture - Historical sites
2. Language, writing and script – Vedas – epics – jataka stories – sangam literature in Tamil.
3. sculpture and Buildings – Harappan cities – Buddhist Stupas and Viharas – rock cut chaityas.
4. Rulers and Buildings – Engineering skills and construction (temples, mosques, tombs, forts and tanks) destruction of temples – imperial style of Vijayanagara period.
5. Performing arts - Film and Print Media – Evolution of cinema – influence of films on the society – role of newspapers in cultural awakening and freedom movement.
6. Sports: Nationalism and Commerce

PEDAGOGY (Marks: 12)

- 1. Social Sciences as an integrating area of study: Context and concerns**
 - Distinguishing between Natural and Social Sciences - Social Studies and various Social Sciences - contributions of some eminent Social Scientists
- 2. Aims and objectives of learning Social Sciences**
 - values through Social Sciences - learning objectives and illustrations - learning objectives in constructivist approach - Academic Standards
- 3. School curriculum and resources in Social Sciences**
 - NCF-2005, RTE-2009, SCF-2011 - syllabus - Resources - Dale's Cone of Experience
- 4. Teaching – Learning Geography – space, resources and development**
- 5. Teaching – Learning Economics – State, market and development**
- 6. Approaches and strategies for learning Social Sciences**
 - collaborative learning approach – 5E learning model – problem solving approach – planning – concept mapping
- 7. Teaching – Learning History**
- 8. Teaching – Learning of Political Science, Democracy and Development**
- 9. Community Resources and Social Sciences Laboratory**
- 10. Tools and techniques of assessment for learning: Social Sciences**
 - Evaluation – CCE – assessment framework – assessment learning of students with special needs
